

Message from NW Area Commander Donovan R. Olvera

As we approach our upcoming bid, starting August 18, 2018, we look forward to our continued efforts in deterring crime, reducing the fear of crime and increasing quality of life for our NW Area Command community and business stakeholders. We are also extending our business coalition efforts to the Riverside Plaza district.

In addition to this, we will increase our visibility in areas where speeding is a common occurrence. This will include more traffic stops.

We will also continue working strongly with City Councilor Borrego and City Councilor Sanchez in addressing and solving issues pertaining to our area command, so the northwest part of Albuquerque continues to be a safe community.

In an effort to continue a strong bond with our community, we will be working closely with the Taylor Ranch Community Center in arranging for officers to show up in after school daycare programs to spend time with the children and staff.

With that being said, if you or someone you know, that works in the Northwest Area Command would like to host a coffee with a cop event or something similar, please feel free to contact Crime Prevention Specialist Pete Gelabert (PGelabert@cabq.gov) so that we can coordinate efforts.

I would also like to invite you to our monthly Community Police Council (CPC) meetings which occur every 3rd Wednesday of the month at the Taylor Ranch Community Center from 6:00pm-8:00pm. Last, but not least, please visit our website for updates and events at www.northwestareacommand.com. I look forward working with each and every one of you in bettering our community.

Donovan R. Olvera
Commander, NW Area Command
Albuquerque Police Department
